

## **LINE COLLECTION**

The ODFW and Middle Rogue Steelheaders (MRS) have implemented line collection stations at Baker, Schroeder, Whitehorse, Griffin, and Indian Mary Parks. And, also at Ferry, Robertson Bridge, Hog Creek and Lathrop boat ramps. The purpose of these stations is to collect and recycle used fishing line.

The Line Collection Coordinator shall:

1. Be the MRS point of contact when the ODFW needs volunteer support for the collection of line.
2. Ensure collection containers are available and in good condition.
3. Deliver the used line to the local ODFW office.

This committee reports to and coordinates with the 2nd Vice President.
